Mike,

Just so you know,.....

while talking to Irene Nolan today about turtle closures, she slipped up and stated that someone is leaking the subcommittee information to her about the proposed routes and areas. She indicated she knew what the enviros are proposing and that it was totally unacceptable. I tried to bring the conversation back around and emphasize how it did not facilitate negotiations if the two polarized groups take such firm stances and I would hope that she can remain as neutral as possible in her reporting.....and report just the facts. We still have a ways to go before final decisions are made. She thanked me but said "folks are getting nervous now that DOI did not support the legislation" and, as I have sensed from other sources as well, she said "many feel that NPS has once again let the local people of Hatteras Island down."

Just to keep you posted....
