**Subject:** CAHA Visitor Fatality Incidents

Several committee members have requested information about visitor fatality incidents over the past 10 years at Cape Hatteras National Seashore. NPS maintains its case incident records in a computerized data base (CIRS = Case Incident Report System) and the database may not be totally complete or accurate, especially for earlier years. The attached file contains the information on deaths at Cape Hatteras that we were able to retrieve from CIRS. We share it with the entire committee in case there is interest.

(See attached file: CAHA CIRS Deaths 97-07.doc)
