Mike, I was hoping that one of the points would also be open to potential night driving on Ocracoke as well as the two on Hatterass. It would benefit both the visitors of Ocracoke and Hatterass Islands as we get a lot of night time fishermen from both places. Thanks for your consideration of this matter. David Scott Esham

All,

Please see the attached first draft of a night access proposal created by CAHA staff for discussion by the subcommittee. The adaptive management portion of the proposal would likely benefit from technical review by persons experienced with adaptive management methodology; however, hopefully this first draft will serve as a starting point for discussion.
