Dear Mike, Kevin Mc Cabe here. Thank you for your efforts regarding the Reg-Neg meetings. I think everyone knew from the beginning they did not have a chance with the Audubon, DOW, and the SELC lawsuit. Their true colors and intent came out rather quickly. In my eyes, Walker and Jason should have been actors. They would have walked with Oscars this past year. However, they DO NOT FOOL ME! Very few people know that Walker use to be a windsurf instructor down here years ago. He would take clients out to the Cape Point "salt pond" for lessons. Ironic isn't it? That pond is what supports the few piping plovers when they do nest here. How much wildlife did he disrupt? I guess he never told you or anybody else about his past. Sidney Maddock didn't instruct but he was very proud to have the biggest 4x4 at the Point back then. That was his favorite place to windsurf until he broke his foot. That is when "The Plan" got rolling. He also did not know or care anything about shorebirds back then. I watched this transpire shortly after I built his house. Anyway, take things like this in consideration when the final decisions are being made. Changes, to some degree, might be needed within the Park that I love and cherish. However, please remember this is a Recreational Park and if the people of the USA knew what was going on this past year, I would not be writing this.

Sincerely. Kevin Mc Cabe

Kevin Mc Cabe
