---

Robert,

During the Integration Group meetings, I was under the impression that you were keeping track of items that may need an adaptive management approach in order to satisfy concerns raised by environmental stakeholders or conservation agencies (e.g., pass-through buffers). **If that is the case, would you or Ona please send me whatever list you have.** We are in the process of creating a new Action Alternative and want to identify the adaptive management projects as part of the alternative.

Thanks,

Mike Murray
