**Date:** 03/30/2009 10:33 AM

---

Wayne,

We received a message from Carla this morning with a corrected cover page that does not list the North Carolina Marine Fisheries Commission as a submitter. With that change, we are not planning to include this message as an addendum to the final report.

Also, Ona told us last Thursday that you would be submitting an addendum for the final report. We have not received anything from you other than this message. Did you send another document to Ona or Andrew last week?

Robert

Notification is hereby given that inclusion of the "North Carolina Marine Fisheries Commission" among the proponents of the Subject Document is premature.

The North Carolina Marine Fisheries Commission (NCMFC) has not been afforded the opportunity to review the Document, nor has the Commission formally endorsed or approved it. The designated representative to the Negotiated Rulemaking Committee, having received the Subject Document on this date, will submit the document to the Commission with a recommendation for its endorsement and approval at the earliest opportunity. That approval could be granted during the Commission meeting in May, 2009.

Until the formal approval or endorsement of the Addendum by the NCMFC is granted, please refrain from including the NCMFC among the proponent activities and organizations, or qualify that listing as "Pending Approval" .
