All,

I think it was a good suggestion to include some sort of description of the wrap-up process. I can live with the language.

Ona,

I could not say that I am thrilled with this language but with a bit of tongue in cheek sarcasm....I could live with it.

Patrick and Mike,

Here's some additional language we've drafted to address Patrick's concern about there not being adequate description of the Committee's wrap up

process in the draft February 26 summary. This additional paragraph would go right under the title "Completion of the Negotiated Rulemaking and Adjournment of the Meeting" on page 8 (attached) and would read:

"Committee members caucused to review Options A and B and the status of efforts to reach consensus. The facilitators, after conferring separately with Committee members and due to differences in the views expressed about Options A and B, recommended to NPS and the Committee that the consensus process should be concluded, with the recognition that everyone worked hard to the very end. The Committee then shifted focus to closing down the meeting and the negotiated rulemaking process."

Please let me know if this will work or if you have additional suggestions. I'm also happy to talk via phone if that is easier (617-844-1127).

Thanks,

Ona
